+39 347 716 9332

3 Piazza Bausan, 20158 Milano (MI), Italy

07-04-2000

Man, unmarried

Car (Class B) and Motorcycle (Class A)

EDUCATION

Master of Science in Computer Science and Engineering
Politecnico di Milano, 2024-Present

Bachelor of Science in Computer, Communications and Electronic Engineering
Università di Trento, 2019-2024
Final Grade: **97** / 110

High School Diploma in Applied Science
Istituto Superiore Enrico Fermi, Mantova, 2014-2019
Final Grade: **76** / 100

PROFESSIONAL EXPERIENCE

Software Developer(IT & Data Analysis Team Member) at PoliMi Motorcycle Factory
November 2025 - Present

- Developed applications in C++ utilizing the Qt 6 framework, focusing on user interface design and real-time data visualization.
- Implemented network communication modules based on TCP/IP socket programming.
- Managed version control and collaborative workflows using Git.

Back-End Developer at Gong TECNOLOGY S.R.L.
September 2022 - August 2025

- Contributed to the development of an automated farm management system for liquid swine feeding.
- Focused primarily on back-end development using Django, alongside database schema design and MySQL query optimization.
- Designed and executed unit test suites to ensure code reliability and test coverage.
- Authored comprehensive technical documentation to preserve system quality and maintainability.
- Leveraged Git and GitHub Actions to build CI/CD automation pipelines for testing.
- Handled front-end tasks as needed.

Web Developer Intern at Kiwi S.R.L.
June 2018 - August 2018

- Internship experience
- Developed front-end and back-end components for client websites.
- Assisted in building a web-based enterprise management system.

TECHNICAL SKILLS

Programming Languages:
C++, Python, Java, Kotlin, JavaScript

Web & Frontend
HTML5, CSS3, Bootstrap

Framework & GUI:
Qt 6, Django, Node.js

Networking & Concurrent Systems:
Socket Programming (TCP/IP), Multi-thread Architecture

Database & Data Management:
MySQL

Tools & DevOps:
Git / GitHub (Version Control & GitHub Actions CI/CD), Docker, Linux Environment.

SOFT SKILLS / CORE COMPETENCIES

Resilient Problem Solving: Skilled at dissecting complex technical problems and delivering robust solutions under tight deadlines while remaining composed in high-pressure situations.

Analytical Thinking & Data-Driven Mindset: Strong aptitude for quantitative and qualitative data analysis to steer objective, well-grounded engineering decisions.

Active Listening & Teamwork: Natural inclination toward cross-functional collaboration, team alignment, and open communication in fast-paced environments.

Adaptability & Agile Esecution: Agile in adjusting to shifting project priorities, evolving feature requirements, and unexpected technical hurdles.

Continuous Learning & Innovation: Keen intellectual curiosity and self-driven commitment to mastering emerging tools, architectures, and development practices.

LANGUAGES

Italian: Native
English: Professional Working Proficiency
